REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of the
Bennington School District:

The superintendent of schools submits the following report for your consideration.

School Organization

School Board: Mrs. J. P. Weston, Chairman, Mrs. Sally Pierce, Philip Knowles.

Supt. of Schools: Vincent Gatto, A. B., Bates College, 1914; LL.B., Hamilton College of Law, 1920; Ed.M., Harvard University, 1929.

Teacher	Grades	N. H. Approval
Mae Cashion	1-2-3	Certificate
Lulu M. Cilley	4-5-6	Certificate
Ruth N. Putnam	7-8	Certificate
Mrs. Annie L. Putnam	Music Supervisor	

G. Dana Kenyon, A. B. Dartmouth College, 1928, Headmaster high school.

The following pupils maintained perfect attendance without being tardy during the school year 1934-1935. We hereby award to the pupils and their parents an honorable mention for the distinction achieved. There were others who had perfect attendance for one or two terms. In this record are included only the names of those with perfect attendance for the entire year.

Miss Cashion's room: Harriet Heath, Marino Azzola, Paul Wilson.

Miss Cilley's room: Robert Champney, Bertha Diamond.

Miss Putnam's room: Donald Johnson, Eva Kereazis.

High School: Eunice Bartlett, Gerald Call, Charles Griswold.

General Discussion

The program of studies suggested by the State Board of Education is successfully carried out both in the elementary and the high schools. The schools are furnished with modern textbooks and scholars' supplies. A beginning has been made in providing laboratory equipment for the study of General Science in the seventh and

the eighth grades. The performance of experiments makes the work real, and stimulates scientific interest among the children.

It is gratifying that Bennington has so many children attending high school. We have reached a point in American life which justifies the belief that a high school education should be the minimum preparation for intelligent citizenship.

Intelligence and achievement tests have been administered in the schools in order to discover weaknesses in the children's attainments, and to provide remedies for any unsatisfactory results, and to help the teachers get the utmost cooperation from the pupils for the purpose of attaining one hundred per cent promotions at the end of the year. Teachers' meetings have been held where a democratic theory of education has been emphasized. Our aim is to fit the schools to the interests, needs, and capacities of the children, rather than fitting the children to the schools. The various teachers have presented before the public fine Christmas exercises, school plays, socials, and some basketball. The public has been very responsive thus bringing together the home and the school in the interest of the children.

Parents should not be too anxious to have their children skip grades. The ability to do the work of the next grade is not the only factor to consider. The child who skips a grade misses the work, the information, and the social contacts and development afforded by the year's time spent in the grade. Children who skip grades often times reach high school too immature to get full benefit from a high school education. Such children leave school so young that they run the risk of having to remain at home with nothing to do.

The superintendent appreciates deeply the fine response of the teachers and the school board to everything which he has brought to their attention. He rejoices in his opportunity to make a contribution to the educational welfare of the splendid boys and girls of the Bennington school district.

Respectfully submitted,

VINCENT GATTO,
Supt. of Schools.

BENNINGTON SCHOOL NURSE'S REPORT

The routine inspection of each pupil's hair, teeth, throat, skin, posture and general hygiene began with the opening of the school year. The use of the class-room growth and weight chart furnishes a strong desire to practice rules which are simple but most important for health and normal growth.

The general appearance of the children does not indicate suffering for lack of food. There are always a few who need special food.

A school dental clinic was conducted by Dr. Grimes in December. The pupils who took advantage of this opportunity received 100 per cent dental correction.

Home visits were made to instruct parents and to follow up defects.

Total school visits, 86.

I wish to thank the school board and local officials for their splendid co-operation.

Respectfully submitted,

MARGARET E. HARRIS.
